**COAL EXTORTION  
GETS EARLY START;  
PRICES AWAY UP**

An Average Raise of \$1 a  
Ton Over Price of  
Last April.

Coal is costing the consumer in  
Greater New York from \$7 to \$7.50 a  
ton. This is an average of \$1 a ton  
more than was paid for the com-  
modity in April of last year. The  
man who buys coal in large lots for  
delivery during the summer months  
is the man who will pay \$7. The ordi-  
nary household pays \$7.75 and the  
retail dealer tells him that he is  
lucky to get it at that.

April is the month when coal is  
supposed to be cheaper than at any  
other time of the year. Coal dealers  
advertised extensively toward the end  
of last month, advising their custom-  
ers to buy their coal early that they  
might take advantage of the low

**MY TIRED FEET  
ACHED FOR 'TIZ'**

Let your sore, swollen, ach-  
ing feet spread out in a  
bath of "Tiz."

Just take your shoes off and then  
put those weary, shoe-crinkled, ach-  
ing, burning, corn-pestered, bun-  
ion-tortured feet of yours in a "Tiz" bath.  
Your toes will wriggle with joy; they'll  
look up at you and almost talk  
and then they'll take another dive in  
that "Tiz" bath.

When your feet feel like lumps of  
lead—all tired out—just try "Tiz."  
It's grand—it's glorious. Your feet  
will dance with joy; also you will find  
all pain gone from corns, callouses  
and bunions.

There's nothing like "Tiz." It's the  
only remedy that draws out all the  
poisonous exudations which puff up  
your feet and cause foot torture.  
Get a 25-cent box of "Tiz" at any  
drug or department store—don't wait.  
Ah! how glad your feet feel; how com-  
fortable your feet feel; how com-  
fortable your feet feel. You can  
wear shoes a size smaller if you de-  
sire.—Adv't.

prices. Big consumers of coal always  
buy in this month, making their  
price and being content to wait for  
delivery during the summer months.  
Some of these have been unable to  
get their usual supply for less than  
\$7.25 per ton, while those who use  
smaller tonnages have had to pay the  
top prices.

The consumers want to know why  
these big prices exist in April. The  
dealer's answer is that they can't  
get the coal. One of the biggest firms  
has instructed its salesmen to quote  
no prices to any one; that orders are  
to be taken subject to their ability to  
deliver at such time as the coal pro-  
ducers and the anthracite miners. Men who  
ought to have their fingers on the pulse  
of the situation declare that there is  
no such fear.

"Coal supplies never have been as  
low at this time of the year as they  
are at present," said A. T. Shurick,  
managing editor of Coal Age. "The  
reason of this is the big consumption  
last winter. More coal was used than  
ever before for steam, both domestic  
and manufacturing. The general pros-  
perity of the country had much to do  
with this. At any rate the result is  
that the big anthracite properties  
have been cleaned out as they never  
were before in their history."

"I believe that the situation will be  
relieved by the continuous operation  
of the mines through the summer  
months. This should make an enor-  
mous production, sufficient to carry the  
supply well into the winter."

In other quarters it was learned  
that soon there will probably be a  
conference of the big coal men with  
the Government with a view to  
standardizing prices as well as to keep  
the mines open through the summer.  
At the office of Burns Bros. it was  
said that the public was unduly  
frightened, and that their efforts to  
buy all their coal at the same time  
had a tendency to make coal supplies  
shorter and prices higher.

"With four or five months of sum-  
mer ahead, when comparatively little  
coal is used and a great deal is pro-  
duced, the price should be lower. It is  
the Government's intention to ex-  
empt the miner from military duty  
so that the mines may be operated;  
and the miners will undoubtedly work  
all summer, as they did last year."

"Their working last summer didn't  
do much to improve the situation in  
the winter," it was observed.

"Well, it might have been worse,"  
was the answer.

At any rate, there is a big difference  
between \$4.14 wholesale and \$7.75 re-  
tail. The difference seems to be up to  
the dealer.

**BEACH U. S. COLLIER  
AFTER A COLLISION**

Rammed Off Hampton Roads by  
Ship to Which She Was  
Passing Supplies.

NORFOLK, April 20.—Disabled in  
what naval officers say was a col-  
lision, a Government collier was  
beached in Hampton Roads last night  
when it became apparent the vessel  
was sinking. This is the first serious  
 mishap of a United States ship since  
war was declared against Germany.

The collier received a terrific blow  
while transferring supplies to another  
vessel. She began to fill at once and  
her Commander headed for the beach  
at full speed. The ship is now lying in  
water up to her second deck.  
Naval tugs are standing by and it  
is said the collier can be floated and  
within a short time will be ready for  
service again.

**GIRLS! LOTS OF  
BEAUTIFUL HAIR**

25 cent bottle of "Dander-  
ine" makes hair thick,  
glossy and wavy.

Removes all dandruff, stop-  
itching scalp and  
falling hair.

To be possessed of a head of heavy,  
beautiful hair; soft, lustrous, fluffy,  
wavy and free from dandruff, is mer-  
ely a matter of using a little Dander-  
ine.

It is easy and inexpensive to have  
nice, soft hair and lots of it. Just  
get a 25-cent bottle of Knowlton's  
Danderine now—all drug stores rec-  
ommend it—apply a little as directed  
and within ten minutes there will be  
an appearance of abundance, fresh-  
ness, fluffiness and an incomparable  
gloss and lustre, and try as you will,  
you cannot find a trace of dandruff  
or falling hair; but your real sur-  
prise will be after about two weeks' use,  
when you will see new hair—fine  
and downy at first—yes—but really  
new hair—sprouting out all over  
your scalp—Danderine is, we believe,  
the only sure hair grower, destroyer  
of dandruff and cure for itchy scalp,  
and it never fails to stop falling hair  
at once.

If you want to prove how pretty  
and soft your hair really is, moisten  
a cloth with a little Danderine and  
carefully draw it through your hair  
—taking one small strand at a time.  
Your hair will be soft, glossy and  
beautiful in just a few moments—a  
delightful surprise awaits every one  
who tries this.—Adv't.

in which their clothing is made as we are. And fewer still
